

Dr. E.P. Scarlett High School

School Digital Citizenship Plan 2025-2026

Relevant contextual information about your school and School Development Plan:

- This is the second year of our wellness goal in our SDP: "Students' experience of feeling safe, welcome, and secure at school will increase." The SDP contains several actions that focus on improving student well-being at school by mitigating anxiety and increasing a sense of safety and belonging.
- Students regularly use school-provided technology for collaboration, independent school work, and research.
- Students regularly use personal devices to collaborate, to complete independent work, to socialize, to document their social world, and to promote school culture.

Relevant evidence and data that informs your Digital Citizenship Plan:

- Alberta Education's direction regarding personal digital devices in the classroom has transformed the dynamic expressed through technology. Ongoing concerns in this area have necessitated a stronger administrative approach.
- Our students have very good academic achievement in school-awarded marks and Diploma Exam Acceptable Standard and Standard of Excellence. Anxiety in school remains unacceptably high, but it has improved from the last school year.
- The OurSCHOOL survey and the Alberta Assurance Measures Report indicate improvement in measures regarding students' feelings of safety and feeling welcome to above the average for the province.

School Digital Citizenship Plan						Progress			
Long Term Goal (e.g. spanning 8- 10 months)	Competency (may be chosen from the CBE DC Competencies)	Short Term Goals (in support of the long term goal)	Outcomes	Activities & Resources	Measures	November	January	June
